

Gofran Al-kesbah

Full Stack .NET Developer

.NET developer with a strong passion for software development. I possess practical experience in .NET programming and proficiency in both front-end and back-end web development.

Education

Software Engineering

The Hashemite University Zarqa, Jordan / 09-2015 - 09-2019

Work experience

Full Stack Developer

AppTrainers-Internship Amman, Jordan / 12-2024 - 06-2025

- Developed responsive web apps using C# and [ASP.NET](#) Core.
- Built and optimized SQL Server databases for various modules.
- Implemented front-end features using Angular.
- Applied OOP principles and design patterns in real-world scenarios.
- Collaborated in an agile environment with code reviews and sprints.

Training Web Applications

JUST CLICK SOLUTIONS - JCS Company Amman / 06-2018 - 08-2018

- Design, implementation and production of newspapers and magazines.

Project

HU Services & Alerts Portal - 2019

- This project is a website provides services to university students by sending notifications via e-mail.
- The notifications include student marks, and attendance and absence records for each student in their personal account.

Foodtek - Restaurant Ordering Web App | *AppTrainers* - 03/2025

- Developed the backend of a restaurant ordering system using [ASP.NET](#) Core and SQL Server, with RESTful APIs for Admin, Customer, and Driver modules.
- Collaborated with a Flutter developer and QA team, using Jira and GitHub, and followed clean architecture and Agile practices.

Car Picker - Smart Car Rental & Buying Platform | *AppTrainers* - 06/2025

- Developed using [ASP.NET](#) Core (backend) and SQL Server (database)
- Enables users to rent or buy cars through categorized listings
- Supports car specs, images, reviews, and online bookings
- Implemented secure login and flexible payment options
- Demonstrates real-world architecture and feature-rich design

COURSES

DARE ACADEMY, Jordan

Full Stack Web Development Course

Duration: 300 hours, completed September 2024

- Learned .NET Core and Angular
